

Biorelevant Symposium

Munich, Germany
June 29

2023

Exciting News!

We are excited to announce the return of our Biorelevant Seminar Series. We can't wait to welcome back our old friends and meet some new ones soon.

Why Attend?

A 1-day symposium to discuss and debate biorelevant assays in Pharmaceutical Science that will bring together scientists who work on formulations that increase the uptake of drugs as well as develop models, instruments, and methods that realistically represent complex biological systems like the GI tract, skin, and others.

Who should attend?

Scientists involved in In-vitro tools
Preformulation/formulation/developability
Simulation: PBPK modeling
Patient areas: pediatrics, geriatrics, oncology, CNS, etc.
Delivery routes: oral, injectable, subcutaneous, ocular, intra-muscular, topical/dermal, inhalation, colonic, etc.

When and Where?

Munich, Germany
